Memorandum

TO: BATA Oversight Committee

DATE: December 1, 2010

FR: Executive Director

RE: Purchase Order – Advanced Toll Collection and Accounting System (ATCAS) Software Maintenance: Provista

The Advanced Toll Collection and Accounting System (ATCAS) on the state-owned toll bridges utilizes IBM- Informix database software to store toll collection vehicle transactions. BATA currently has a contract with a third party provider for software support and maintenance, which allows BATA to receive Informix software product updates and technical support.

The current contract for the Informix software support expires in January 2011. Staff proposes that the database software maintenance and support services be obtained through an IBM government reseller, Provista, using the U.S. General Services Administration (GSA) procurement agreement. The proposed contract with Provista for software support will be a one year contract (January 2011 through December 2011) at an estimated cost of \$150,000.

Recommendation

Staff requests that the Committee authorize the Executive Director to execute a purchase order with Provista in an amount not to exceed \$150,000 to provide database software maintenance support for ATCAS.

Steve Heminger
